

QUALITY • SERVICE • FLEXIBILITY

STEEL HOUSINGS, ENCLOSURES
BUILDINGS & STRUCTURAL STEELWORK

PSF Wales is the steel manufacturing division of Morgan GRP Ltd, based with sister company Morgan Marine at its site in South Wales. Its flexible and modern facilities extend to 9 acres with 120,000 square feet of purpose built manufacturing space.

STEEL HOUSINGS, ENCLOSURES & DOOR SETS

We are the UK's leading designer, manufacturer and installer of steel cabinets and enclosures. We offer a range of LPCB Security Rated products to protect infrastructure where security is paramount. PSF Wales has a well-established customer base which reflects the company's commitment to providing quality products through innovation and expertise.

Our Standard range of steel products include:

- Kiosks
- Housings
- Enclosures
- Cabinets
- Bespoke Equipment Housings
- Single and Double Doors
- Covers and Access Hatches
- Roadside Cabinets
- Gatehouses

In addition to our range of standard steel enclosures and steel industrial buildings we offer a range of larger steel structures, these include:

- Structural Steelwork
- Modular Steel Buildings
- Portal Steel Structures

Our LPCB Security range includes:

- SR 2, 3 and 4 Cabinets
- SR 2, 3 and 4 Enclosures
- SR 2, 3 and 4 Single and Double Doorsets

Hercules SAF SR3 & SR4
Doors and Modular Enclosures
Approved to LPS 1175: Issue 6 and 7
Security Ratings 2, 3 and 4
Cert. No. 953A/B/C/D

MULTIFORM STEEL HOUSINGS & ENCLOSURES

Multiform is a range of bespoke buildings and cabinets designed to suit client's individual specifications and requirements. The client has complete flexibility in build size from small meter cabinets to large plant and equipment rooms.

A variety of constructions are available to suit specific needs and site conditions these include Single Skin, Insulated and Acoustic. Housings can be supplied with an internal base flange for bolting down to a concrete plinth or mounted onto a steel sub frame.

As NICEIC electrical contractors, housings can be pre-wired with lighting, heating and small power. Our versatile housings can be found across all industry sectors including the Utilities, Construction and Rail.

FEATURES

- MILD STEEL, GALVANISED, ALUMINIUM OR STAINLESS STEEL
- VENTILATION AND HVAC SYSTEMS
- NICEIC ACCREDITED ELECTRICAL INSTALLATIONS TO 17TH EDITION
- STEEL SUB FRAMES AND RAISED LEGS
- FULL LOGISTICAL AND SITE SERVICE
- STONE OR TIMBER EFFECT CLADDING TO MEET PLANNING REQUIREMENTS

For our Standard range of single and double cabinets please refer to the Morgan Roadside Brochure.

PORTAL STEEL BUILDINGS

PSF Wales Ltd design, manufacture and install portal steel framed buildings and modular steel buildings to suit a wide range of applications.

Buildings are designed to comply with the latest Building Regulations and Structural Steel complies to Eurocode 1.

Suitable for both industrial and agricultural use, these buildings can include overhead gantries, lifting apparatus and runway beams.

Buildings can be clad in a variety of composite panels to meet insulation and fire specifications and colour coded to suit the application.

For areas with sensitive planning conditions and environmental restrictions we can offer slate effect roofs and timber cladding. We work with our clients to help them achieve planning approval.

FEATURES

- STEEL FRAME ONLY
- PORTAL STEEL FRAME BUILDINGS
- MODULAR STEEL BUILDINGS
- PORTAL STEEL STRUCTURES
- STRUCTURAL STEELWORK
- MECHANICALLY OR ELECTRICALLY OPERATED ROLLER SHUTTER DOORS
- DOUBLE AND SINGLE PERSONNEL ACCESS DOORS

STRUCTURAL STEELWORK

PSF Wales design, manufacture and install structural steelwork for a multitude of uses.

We specialise in roof top solutions and have designed many applications where existing roofs are the only available space to mount equipment but may not have the structural strength to take the weight.

Steel beams and girders are utilised to transfer the loads to the structural members of the existing building.

- Support for plant and equipment rooms
- Steel beams for mounting air conditioning equipment
- Building strengthening
- Steel legs to raise buildings
- Access and walk ways

We can provide full structural beam calculations, working with your designers and consultants to provide the best solution.

During the installation phase we operate closely with other trades and your contractors to ensure a smooth completion to the project.

STEEL DOOR SETS

FEATURES

- HOLD OPEN DOOR STAYS AVAILABLE
- DOORS ARE PRE MOUNTED IN A ROBUST STEEL FRAME
- MULTIPLE LOCK CHOICES
- HEAVY DUTY STAINLESS STEEL HANDLES AS STANDARD
- AVAILABLE IN ANY COLOUR FROM BS 5252 OR RAL RANGE
- AUTOMATIC CLOSURES

Our comprehensive range of doors are available as single or double sets and can be either single skin or insulated offering a double skin construction.

Doors can be fitted into steel and GRP enclosures or brick built buildings and portal steel constructions. Multiple lock options are available, from single point to multipoint, push pad escape and pad-lockable, including the revolutionary pad lockable with internal override meaning no risk to personnel being locked into a building.

LPCB PRODUCTS

Our comprehensive range of LPCB security rated products are independently tested by BRE to the LPS 1175 standard these include LPCB security rated door sets

- Security rated 2, 3 and 4 single and double door sets
- Multiple locking options from solenoid to padlock
- Security rated enclosures to SR Level 2, 3 and 4 available in single skin or Insulated
- Removable roofs
- Secure LPCB ventilation options
- NICEIC electrical installations
- Various external finishes available

LPCB Inspection Service

We are able to offer an inspection service to ensure products certified under LPS 1175 continue to meet the required LPCB Security Rating. Over time modifications are made to housings which are not necessarily in compliance with the standard. We can offer site specific inspections, annual and five yearly to suit our clients requirements.
